POLYESTER
POWDER
COATING

GALVANIZED
STEEL

Since 1962 we have been producing hose reels that last, **made of galvanized steel and coated with no-toxic polyester powder**, designed to withstand the sun, rain and different climates. A superior protection that means quality, high technology, respect for the environment. To the *Artificial Intelligence* we add the **CRAFTSMAN INTELLIGENCE**: because intelligence, the real one, is to **know how to create products that last**.
