## Art. 131 KB

Reel for ropes, wires, chains, etc.

Made of galvanized steel sheet and pipes; side disc diameter 350 mm, inner reel diameter 120 mm, distance between the side discs 220 mm.

Equipped with 1 rewinding crank made of steel and PP coated; it can be installed on both sides of the reel and removed from the reel after use to reduce the volume.

The frame has a support pipe so that this reel can be installed on any support with a 28 mm dia. max.
